## DEPOSITORS PAY HONOR TO SMITH FOR BANK QUIZ

Protection of Depositors Is  
Myth, Prosecutor Says  
at Meeting

Members of the executive committee of the United Depositors Association of Illinois, together with scores of others who have felt the sting of loss in the closing of Lake county banks, attended a meeting at the high school in Waukegan Sunday in honor of Colonel A. V. Smith, Lake county's state attorney who has been active in obtaining indictments in connection with the failure of the Waukegan State bank.

Speeches were made by Dr. E. Byrnes Kelly, chairman of the depositors' association; Thomas D. Bell, treasurer of the association; Harry D. Winfield, president of the North Shore Civic association, and Colonel Smith.

Dr. Kelly said the depositors' organization was prepared to advocate legislation permitting private accountants employed by bank depositors to audit the books of closed banks. Mr. Bell and Colonel Smith criticized State Auditor Oscar Nelson for "laxity."

"Since delving into the Waukegan bank situation I have discovered that protection of depositors is a myth," Colonel Smith declared. "It is apparent now that in many cases the bank examiners, instead of thoroughly studying the bank books for evidence of bad loans, were in many cases content to accept the word of bank directors as to the condition of their institutions."

Colonel Smith urged that the depositors' protective committee of the Waukegan State bank join the United Depositors' association. H. F. Marsh, chairman of the Waukegan depositors' group, indicated this suggestion would be followed.

**Asks Change of Venue.**  
Separate trials of five defendants in the Waukegan State bank conspiracy cases may be forced by moves of the defense attorneys this week.

State Auditor Oscar Nelson, George Woodruff, former chairman of the board of the National Bank of the Republic, and Norman Goyer, president of the Waukegan State bank, petitioned to have their trials removed from Lake county because of alleged prejudice on the part of the population.

W. H. Miller, through his attorneys, Claire C. Edwards and Sidney Block, asked that another judge be substituted for Judge Ralph Dady, but this would not remove the trial from Lake county with the others.

**Enters Motion to Quash.**  
Albert Hall, counsel for J. Murray Connors, vice-president of the Waukegan State bank, did not ask for a change of venue, but entered a motion to quash the indictments. This means Connors will stand trial in Lake county.

All these men were named in an indictment charging conspiracy to defraud the Waukegan State bank of \$2,000,000. Nelson was also named in a separate indictment charging misfeasance in office, while Connors was charged with embezzlement.

**Defendants Seek Delay.**  
When attorneys for defendants in the Waukegan State bank failure cases appear in court for pleadings this morning they are expected to be able to secure another delay by entering motions to quash indictments.

These motions will undoubtedly be entered today, and a legal battle may ensue between State's Attorney A. V. Smith and defense attorneys as to whether the motions will be oral or written.

Colonel Smith notified the defense over a week ago that he would ask Judge Ralph Dady to rule that these motions be in writing in order to prevent the defense from introducing other points later.

## ROADHOUSES ARE LISTED FOR HEARING

Among the suits to be heard today and tomorrow before Judge F. A. Geiger in federal court in Milwaukee are the Brass Band, Tavern, operated by William Karpen, and the Fairway Grill, operated by Richard A. Moran, which were raided by federal prohibition agents.

Although little information regarding the suits has been given out by the government, padlock proceedings are pending against at least seven other Kenosha county establishments. They include: Dew Drop Inn, Liberty Inn, Maple Inn, Stop Inn, Bunk's Place, Pasadena Gardens, and the Old Farm Inn.

## Fair Officers Discuss Plans for 1932 Fair

Plans for next year's Antioch County fair were discussed at a meeting of the fair officers held at the high school last night, with view of making improvements.

A comparison of statistics shows that the amount paid out for premiums this year exceeded last year's total by \$255, most of this money going to local prize winners. Checks have already been mailed. Financially, the 1931 fair was a success, according to C. L. Kuttli, secretary.

## Girl Scouts Here Will Observe N.G.S. Week

In recognition of National Girl Scout week, members of the local group will go on a hike Saturday, the subject of their study being woodcraft.

Four patrols, consisting of thirty-two girls, have already been organized, the leaders being Jane Allner (Eagle), Hazel Chinn (Orion), Jeanette Peterson (Wren), and Mary Louise Snyder (Cardinal).

At the regular meeting held at the high school last night, Mrs. E. J. Lutzman began her instruction in first aid work, emphasizing the fact that Girl Scouts should give first aid to others rather than to themselves, especially to those under 5 years of age, and over 50.

## Initial Band Meet to Be Held Nov. 3

Tuesday night, November 2, at 8 o'clock, is the time set for the initial meeting of the Antioch municipal band, which will be held at the high school gymnasium. All members are asked to bring their instruments for this first rehearsal. Several numbers by the McElroy entertainers will be offered as a special feature.

## Costume Ball to Be Held at St. Peter's

The stage is all set—for St. Peter's Halloween costume ball, to be held at St. Peter's hall Friday night. The music will be furnished by Howard Gaudin's Victorians and refreshments will be served. It is being sponsored by the members of the Dramatic club.

## Antioch Young Folks All Set To Make Whoopie Hallowe'en Eve

With the coming of the friendly darkness tomorrow Antioch revellers and near revellers will sail forth to begin their daring pranks—to do, or die, unhampered, as long as they do not do anything unreasonable or rabid, the ingenuity of their minds.

If the past is any indication of the future, the celebration on the eve of the thirty-first here will be no tame affair. In fact, the success of the occasion will no doubt be measured in terms of wild deeds, daring exploits, ghost-like enchantments, and weird appearances.

**Nature of Celebration Changed.**  
There is a vast difference in the present day Hallowe'en celebration and those that were connected with the origin of that festival occasion.

The word, "Hallowe'en," originated from Hallowed Evening, which is the evening preceding the day set aside for the Feast of All Saints.

Pranks, jokes, and boisterous fun were unthought of in connection with the first Hallowed Evening celebration; however, the sobriety of the occasion finally gave place to pure frolic and the term used to designate the time was abridged in some way to the same manner as the sacredness of the occasion and to a much greater extent. In England, it became the custom to crack nuts around the home fireside, soon after which the ingeniousness of youth devised additional means of transforming sobriety to mirth. All sorts of antics began to be practiced to the extent of shocking the older folks.

Games of all kinds were introduced and some of these have been continued ever since. When the young people duck for apples around a tub of water, they are merely following a Hallowe'en custom that had its origin in England so many years ago that the exact time has been lost in antiquity.

**Witchery Originated in Scotland.**  
Scotland and England gave us the weird superstitions and witchery of Hallowe'en. In England and Scotland, and other countries the belief in witchcraft was quite prevalent during the fifteenth and seventeenth centuries.

Perhaps youth saw the humor in the situation. In any event the boys and girls took advantage of the witchcraft beliefs and performed queer antics to the amazement and consternation of those on whom the tricks were played.

The boys and girls of Scotland made a specialty of witchery, and long after the ideas of witchcraft were exploded, the fascination still clung in the minds of the Hallowe'en revellers, and for one evening in the year they went back to witch pranks and performed the part that the witch was supposed to take; the witch was supposed to discover, by slotted by the attempt to discover, by some imagined charm, one's future life partner.

## WILL ASK SUPERVISORS TO RECOVER LOBDELL'S \$7,500 EXCESS SALARY

Assistant Supervisor Chas.  
O. Jones Will Introduce  
a Resolution

WILL BE ASKED TO  
ACT IN DECEMBER

A resolution asking that the Lake county board of supervisors authorize suit to recover from R. M. Lobdell, county superintendent of highways of Lake county, the sum of \$7,500 received by him as alleged excess salary during the last three years, will be presented at the December meeting of the county board by Assistant Supervisor Chas. O. Jones. It was announced yesterday.

Lobdell's salary, formerly \$4,500 a year, was increased to \$7,000 at the June, 1928, meeting of the county board, the new salary to become effective July 1 that year. Appropriation for the office of highway superintendent was not increased to take care of the salary boost, but the additional \$2,500 was taken from the engineering fund.

Doubt arose as to the legality of such a course, and State's Attorney A. V. Smith was asked to get the opinion of Attorney General Carlstrom. The attorney general, in the opinion given this week, declared that the board of supervisors was without authority to increase the salary of an official during his term of office, also that payment of such salary from any other than the general funds of the county was contrary to law.

Pending a satisfactory settlement of the case, Colonel Smith has advised County Treasurer Jay B. Morse not to pay any salary to Mr. Lobdell in addition to the \$4,500 legally established by the board.

Mrs. Frank Wilson and children, Libertyville, visited with their mother and grandmother, Mrs. D. Atchison, who is critically ill at her home on Orchard street, Tuesday.

Mrs. M. Brudy and son, Lester, and Sylvester Wilcz, of South Bend, Ind., visited over the week-end with Roy Pierce and family.

Spangard, Gladys Dardenne, Marion Spangard, Louis Dardenne, Julia Stricker, Howard Simons, Gordon Martin, Charles Cermark, Warren Smith and June Ellis.

B. Barnett Henry, of Chicago, is directing the production.

## PUPILS RANK HIGH IN SCHOLARSHIP

Last week anxiety reigned supreme at the Antioch grade school; the week tears and smiles are rival competitors for that honor. Well, at any rate, there's plenty of circumstantial evidence down there that report cards really do play an important role in the child's life.

It all seems hard, but for the most part those who were disappointed bore up under that "terrible" nerve-wracking strain like good sports and resolved to dig harder and deeper the rest of the year.

Here's a list of those who smiled, or at least had reason to smile:  
Fourth grade—Lucille Waters, 93; Leona Hostetter and Betty Hanke, 92; Helen Lubkeman, 91; Mildred Van Patten and Pearl Johnson, 90.

Fifth grade—Myrtle Lovestead, 92; James Van der Linde, 90; Edna May Snyder, Carolyn Phillips, and Lorraine Laursen, 89; Marjorie Hodge, 88; Florence Verkest, 87.

Sixth grade—George Hawkins and Charles Miller, 91; Bernice Sherman and Mary Lou Sibley, 90; Robert Chinn and Florence Hackett, 89.

Seventh grade—Harvey Miller, 92; Mary Louise Snyder, 91; Vallere Wilson, 90; Jayne Allner, 87.

Eighth grade—Paul Richey, 92; Kenneth Mortensen, 90; Dean Wilkins, 88; Warren Miller, Bruce Dalgard, and Albert Vykruita, 86.

Mrs. William Johns, Mr. and Mrs. W. A. Johns, Irving Park; Mr. and Mrs. C. Ball, Elmhurst; and Mr. and Mrs. William Fredericks, Villa Park, were Sunday guests of Mr. and Mrs. George Bartlett and family, the occasion being Mrs. Bartlett's birthday.

## PRESENT CALENDAR IS CUMBERSOME, DECLARES F. R. KING

Uses Cotsworth System for  
a Year; Is Pleased  
With Results

An advocate of calendar simplification for a number of years and user of the 13-period Moses B. Cotsworth calendar since last January, Frank R. King, proprietor of King's Drug Store, King, proprietor of the most progressive and one of Antioch's most progressive business leaders, is convinced that our present calendar system is clumsy, defective, and a sort of hangover from a bygone age, and shifting dates month, split weeks, and a host of other week days, causes confusion, especially all the processes of civilization, especially felt in the business world.

"The 12-month calendar is a joke," said Mr. King in an interview this morning. "It is just as cumbersome and obsolete as our old system of weights and measures."

All Months Comparable.  
The outstanding advantage of the 13-period calendar, according to Mr. King, is that all months are comparable without any adjustment being necessary for the unequal number of days or the unequal number of weeks as found in the ordinary 12-month calendar. The plan of the modern calendar is as follows:

Every month will consist of twenty-eight days. It will begin on Sunday, like the week, and end on Saturday. It will thus consist of four weeks, no more, no less, and every month of every year will be exactly like every other year. Thirteen of these months will make up a year, except one extra day, which, inserted between the last Saturday, that is the last day of one year and the first Sunday, that is the first day of the next year, will be an international holiday, an extra Sabbath. The new month will be inserted in midsummer, between June and July. Every four years, the additional day (which is now added to February) will be inserted between June and the new month as an additional Sabbath. Thus every Sunday of every month of every year will be either the first, the eighth, the fifteenth, or the twenty-second. Then when you say the nineteenth, you will mean the third Tuesday of the month. It somebody tells you he will pay you something a month from today you will know precisely on what day he will pay you.

**Simplifies Bill Paying.**  
When you pay rent you won't be paying more per day in one month than you are paying in any other month. If you are receiving a salary by the week and you are paying your bills by the month, you will know each month just how much you can count on. If you are carrying on a business in which you settle your accounts monthly, you will not have an extra month in which you will have an extra pay-roll to meet. If you have any calculations to make you can know instantly the number of days between any two dates. Election day, as now set for the first Tuesday after the first Monday in November, will always fall on the third of the month—unless election day is changed to Monday, as it might well be, when it will always be the second.

**Looks to Universal Adoption.**  
Mr. King looks forward to the time when the Cotsworth calendar will be adopted universally, and he believes it is indispensable to a quick and accurate comparison of business, economic, and financial statistics. Both from experience and observation, he can see wherein practically all kinds of records will be far more useful and far less costly when kept on the new calendar basis.

Mrs. A. C. Taseday visited in Chicago Tuesday and Wednesday.

## LEE MCDONOUGH TO OPPOSE PADDOCK IN STATE SENATE RACE

Waukegan Man, a Former  
Representative, Announces  
That He Is a Candidate

Lee McDonough, Waukegan plumbing contractor and former state representative, will be a candidate for state senator in the Republican primary next April. He will oppose the incumbent, Senator Ray Paddock of Wauconda, who is expected to run for re-election.

McDonough, long prominent in Lake county politics, was formerly treasurer of Lake county in 1928 he topped the ticket when he was elected state representative. Two years later he was defeated by a small margin.

While other names have been mentioned freely in connection with the senatorship derby, the entrance of McDonough into the race is expected to narrow the contest to a 2-man affair, and a hard fight is predicted between McDonough and Senator Paddock.

## WILLIAM MARDORF DIES IN MAYWOOD

Following an illness of several years, William A. Mardorf, Antioch, died Friday morning.

The deceased was born in Pittsburg, Pa., June 15, 1871, and was married to Mary Thorn, Chicago, in 1893. He resided in Maywood for thirty-seven years where he was a plumber. On October 4, 1930, he underwent an operation at the Mayo Brothers hospital, Rochester, which gave him temporary relief.

He is survived by his widow, Mrs. Mardorf, three daughters, one son, and a brother, five sisters, and four grandchildren.

Funeral services were held at the Sennel funeral home in Maywood Monday with the Rev. C. J. Kollman, pastor of the First Congregational church, officiating. Burial took place in Oakwood cemetery.

## J. B. Rotnour Players Coming to Crystal Every Monday Eve

Manager Fred B. Swanson announces the return engagement of the J. B. Rotnour Players for the coming season, starting Monday evening, November 2, when the popular players will stage the opening production of the spoken drama at the Crystal theatre. The company will appear in popular productions every Monday night. Doors will be open at 7:30 and the play at 8:15. Family prices will prevail, J. B. says.

Having played here each winter season for several years, the company needs no introduction to the people of Antioch and vicinity. Mr. Rotnour presents a cast of undisputed talent in the dramatic and vaudeville field, every player being especially engaged for merit in his line of work.

Heading the company again this year is Harry Rousseau. Billie, the comedian, is coming back, and such other stars as Robert Bayley, Dick Bayley, Dick Castleman, Rudolph Knaap, Miss Avo, Gordon Bayley, Miss Phyllis Castleman, William Jule, and Miss Frances Robertson will be seen in late plays and in vaudeville specialties. Miss Robertson and William Jule formerly were with the stock company that played for a solid year at the Majestic theatre in Waukegan.

## FLOYD ROTNOUR DIES IN ELGIN

Funeral services for Floyd W. Rotnour, who died at his Elgin home early Monday, were held yesterday in Richmond where the body of the former business man of that village was brought for burial. The deceased was the father of Mrs. Virgil Felter, of Antioch, and John Rotnour, Chicago; also surviving are two brothers, John B. Rotnour, Richmond, and Harry, of Rockford.

For many years Mr. Rotnour engaged in the market and grocery business in Richmond. Five years ago he moved with his family to Elgin where he was employed until two years ago when failing health caused his retirement. His death came suddenly, following his release a few days ago from a hospital where he had been for treatment.

The Rev. Philip T. Bohl, pastor of the Antioch Methodist church, formerly pastor of the Richmond church, and other Antioch friends attended the funeral services yesterday.

## MAKING A FEW JOBS FOR THE UNEMPLOYED

There probably isn't a resident of Antioch who has not planned on doing something around the house and yard when "he got time" or was in the mood. If that work is to be done, now is the time to do it. In some cities a regularly organized canvass of the entire population is being made and work that has been put off is underway, giving jobs to several hundred persons.

In order to carry that out a local employment registration bureau is organized and kept busy seeking jobs for men and women as well as keeping in touch with unemployment conditions.

Antioch might well try this out.

We are told to expect a business revival within the next few months. It may do us a little good to expect better times and, taking council of our wishes, we may believe it. The outlook is not happy for the small community because the village and small city is dependent upon the farm and even the most hopeful farmers realize that it will take time to work out of the agricultural depression. Prosperity by proclamation may have some effect, but the merchant who overstocks because the government has announced the coming of prosperity may face bankruptcy, because of goods he cannot convert into cash.

## THE CURE FOR THE DOLE

In the last year or so we have heard much of the English dole, from the standpoints of both those who oppose it and those who favor it. We have heard that the dole is essential for this country, and we have likewise heard that it would be a menace to our institutions.

Most of this talk has dealt with theories. But a letter printed in the Manchester (England) Guardian, from an actual recipient of the dole deals with facts. He sensitively describes the humiliation and the misery of thousands of the people who are given it. And he says, "Politicians wrangle and governments change, but there is no new program, no suggestion of how to find the

money to pay you for the work you are willing and anxious to do. . . . This unemployment is an effect, not a cause. . . . Only a cure which gets at the root, which traces the causes all over the world, can carry a message of hope."

This is from England, and conditions are far better here. Even so, it is something we cannot disregard. Employment is the cure for the dole—and for the destruction of character and pride which the dole causes. Industrial leaders are now working on the problem, and several great businesses have instituted cures for unemployment within their organizations. Every business should do likewise, so far as it is able, and every citizen should do his bit to keep the need of the dole away from American shores.

## POTENTIAL MURDERERS?

It is a common argument of crime-reformers that the sole purpose of the pistol is to kill, and that the possessor of such a gun is a potential murderer.

It has been estimated that some ten or fifteen million Americans possess pistols, and a good share of these undoubtedly use them frequently for game or target shooting. To say that all these people are potential murderers is equivalent to saying that murder is a universal urge. The point that reformers miss is that the will to murder is not a matter of physical equipment, but a mental condition. The person who wants to kill may do so with a pistol—and he may likewise do so with poison, an axe, a knife, a rope or some similar agency.

As a means of killing, a sawed-off shotgun is far more dangerous than a pistol and requires less skill on the part of the user. Almost anyone of a mechanical turn of mind could manufacture a gun good enough to kill at short range. Anti-pistol legislation is not only unjustified, but is entirely futile as a means of preventing crimes of violence.

## UP TO THE MOTORIST

Between 1920 and 1930 motor vehicle taxes increased 513 per cent—principally due to the gas tax, which alone produces more than \$500,000,000 a year. This tax is constantly being increased, and in some states has actually been diverted to such purposes as fish hatcheries, oyster conservation, state buildings, property tax reduction, water supply systems, schools, and so on.

The gasoline tax is becoming class legislation of the most obnoxious kind.

The motorists of the country must show that the old idea that "one cent more won't make any difference" is no longer true.

## Here's the Way to LOWER FUEL COST

## Burn This Special ... Highly Efficient Home Heating Fuel

Waukegan Koppers Coke is made specifically for use in home heating plants. In its manufacture almost all elements that do not burn and which create soot, smoke and ashes are removed. For this reason, Waukegan Koppers Coke is practically all heat. Few ashes remain when it is burned. All forms of grime are completely absent. These important features lower your fuel costs by giving you more heat for every dollar. Waukegan Koppers Coke is easy to regulate. A low fire is held without trouble in mild weather. This saves fuel. Responds quickly when you need more heat.

## There Is a Size For Every Heating Plant

Whatever type your heating plant may be, there is a size Waukegan Koppers Coke which can be used in it with unusual economy and efficiency. Ask your fuel dealer for complete information.

It's getting so the rising generation retires about the time the retiring generation arises.

One of the timely things to think about just now, to insure economical comfort in the approaching winter, is weather-stripping and storm sash, doors and windows. You know they save drafts, chills and ill-health. They also help out considerably on the fuel bills. We are headquarters for the best for the price, whatever you plan to pay.

The most tactful remark we've ever heard was made by a man who happened to walk in on a lady while she was bathing. "Oh," he exclaimed as he backed out, "you must excuse me, sir!"

Out in a little Illinois town there are signs, they tell us, on every fire plug, "Parking Rates: \$15 and Costs."

C-O-A-L stands for "Comfort of American Life." Without coal, there would be great discomfort in this country of ours, not to mention what would happen to industry.

Wouldn't it be a splendid idea to have that coal bin of yours filled now? Then you can smile at your neighbor when the coal-rush comes later in the season.

If you can afford to build that new home you have wanted, now while labor and material are the cheapest for fifteen years, and lower than they will be again for some time, fall is an ideal time to do it. It can be enclosed and the heating apparatus in before cold weather, and the interior can be finished in the winter. Then you can occupy early in spring, in time for the gardening and landscaping. Worth considering. Let us talk it over with you.

Let us show you how easily you can fix up your old porch so that you can make use of it this winter. It is one of the most practical improvements you can make around your home.

About the meanest trick you can pull is to drop into a back seat at church and let the well-meaning usher look foolish as he turns to bow you into a pew.

## Think It Over

### Taxpayers' Questions

Will some late commissioner of Waukegan tell the taxpayers who signed the signature of the late city clerk to special assessment bonds which the auditors found paid and cancelled and upon which the purported signature of the late city clerk had been signed by other parties?

Do taxpayers and bondholders want special assessment bonds if they are signed by others than authorized city officials?

In special assessments where the annual installments are in extremely small amounts, why have taxpayers not been assessed during a term of years less than ten in order to save time and expense in spreading and collecting assessments?

Was it not the result of the agitation by organized taxpayers that the auditors are able to remark about the Waukegan affairs in their report, "The records covering the special assessments added during the last fiscal year indicate that contracts, proposals and final estimates were prepared with more care during this period than in former years?"

Who will explain to the taxpayers how it is that the Waukegan auditors were obliged to report in part as follows: "As shown above the actual spreading and collecting costs charged to these dockets during the fiscal year ending April 30, 1931, amounted to \$4,228.85 which amount is considerably less than \$12,541.51 provided in the final certificates of costs?"

Is it impossible to secure public officials who will give the property owners a square break and stop making them pay about three times what an element costs in special assessments?

Will not many taxpayers vote thanks to the Waukegan city treasurer if no bonds are paid in the future until final certificates of costs have been confirmed and thus forever end the kind of racket that scandalized the 1926 special assessments in which at least \$70,000 in bonds were issued for "extras" before confirmation and with a not result that many innocent holders of such bonds are having their payments scaled down simply because nobody forces the contractors to return the money they had no right to secure on such bonds? Why is the audit silent on restitution by the contractors?

How can it be that auditors can find special assessment bond coupons that had not been properly cancelled in the Waukegan special assessments and who is to blame for such a condition? Is the person still employed and handling such matters?

When \$500,000 is reported by the auditors as delinquent in the special assessment roll of Waukegan, what is the ultimate answer by and for taxpayers whose plight is thus recorded after the late commissioner finished its process of taking Waukegan out of the mud and putting so many property owners in the financial hole, especially in the outlying districts where the improvements now benefit none other than whoever made a profit by working on the same?

After considering all possible answers to these special assessments questions, what sane taxpayer will ever suffer anybody who had the least thing to do with such mistakes and improvement projects to again feed out of the public crib? Should not a policy of once bit twice shy prevail when such imprudent public officials seek public honors of any kind?

When will doctors, dentists, druggists and lawyers cut their prices in line with wage cuts of taxpaying factory workers or can they exact pay like a combine of the types, fuel, utility and milk racketeers?

How many taxpayers enjoy a good laugh at the expense of an editor who tries to set himself up in the other person's town as that town's molder of public opinion, welfare, finance, politics, popularity, beauty contests, or what have you?

Why should not taxpayers sneer at politicians under arrest when they are generally "physically" unable to appear for trial?

If the taxpayers of a community cannot pay the electric current and power bills, why talk about extending an option at \$3,500 per acre for lake shore lands which were licked to a frazzle twice by militant taxpayers who have not yet even begun a real fight against the interests that fancy they are forsy with cash-on-delivery propaganda?

Why is a local press so anxious to spread untruths about a taxpayers' association which has stopped foolish washing of taxes?

# LAKE COUNTY TAXPAYERS' NEWS

"And ye shall know the truth and the truth shall make you free"

## LOBDELL SALARY WITHHELD; ROAD CHIEF WILL QUIT

### Taxpayers Demand Return of \$7,500 "Excess Pay"

#### CARLSTROM OPINION BRANDS PROCEDURE AS ILLEGAL

County Treasurer Jay B. Morse will make no further payments from the engineering fund toward the \$7,000 salary of R. M. Lobdell, county superintendent of highways, it was announced yesterday. Morse's decision to withhold that part of Lobdell's salary that has been ruled as illegal followed a conference with State Attorney A. V. Smith.

Some time ago Assistant Supervisor Charles Jones and William Brochelsen, now president of the Waukegan Taxpayers Association, conferred with the state's attorney's office and requested that an opinion be given on the action of the board of supervisors in paying the superintendent of highways, \$2,500 yearly in excess of the salary provided in annual appropriation bill which provided \$4,500 yearly. Few paid much attention then to the Lake County Taxpayers News story about it but now the press associations are featuring the News' movement to stop illegal fees.

As a result of the action of the organized militant taxpayers a stop order has been obtained and ultimately many thousands of dollars may be returned to the public treasury because this form of racketeering has been going on for several years.

In plain, blunt language the attorney general has ruled out this type of county board Christmas presents to its favorites.

Mr. Carlstrom informs State Attorney A. V. Smith in part as follows: "The board of supervisors was without authority to increase the salary of the county superintendent of highways during his term."

"It is my opinion that the county superintendent of highways cannot be paid a salary or expenses out of any funds excepting the general funds. In the event that engineering expense on a road building enterprise in addition to that which can be performed by the county superintendent of highways is necessary, such engineering expense, payable to a person other than the county superintendent of highways, may be paid out of a road fund, but as stated the county superintendent of highways can be paid his salary and necessary expenses only out of the general funds of the county."

Lobdell's salary was raised to \$7,000 a year in 1925, when at the June meeting of the board of supervisors, the road and bridge committee, maintenance committee and the finance committee recommended an increase of \$2,500. Lobdell's previous salary was \$4,500, this amount being appropriated each year for that purpose. The appropriation was never changed, the increase in salary being paid from the engineering fund.

According to Attorney General Carlstrom's opinion the transaction was unlawful in that an official's salary cannot be changed during his term of office, and also that the superintendent of highways' salary should be paid from the county's general fund.

Members of the committees recommending the salary increase were: Frank T. Stanton, James O'Connor, C. H. Stratton, B. F. Naber, Wm. J. Obee, E. A. Ficke, Jas. Kelly, I. W. Holderidge, A. W. Vercoe, H. C. W. Meyer, and John D. Thomas. Supervisor Cory made the motion and all of the thirty-two supervisors present at the session (June 12, 1925) voted "Aye." Supervisor Funk was absent.

"Try and Find Out!" It was at September, 1931, meeting of the board that the discrepancy between the appropriation of \$4,500 and Lobdell's actual salary of \$7,000 was discovered. Inquiry was made as to the source of the extra \$2,500, and Supervisor Ficke is said to have remarked to the inquirer, "Try and find out."

Evidently it did not require a great amount of time to secure this information and to put a stop to an expenditure which the attorney general of Illinois has branded as an infraction of the statutes.

Lake county taxpayers demand that the money paid illegally to Lobdell be promptly refunded.

This decision has recalled a similar one that money cannot be paid for

## Supervisors Disregard Statute In Boosting Lobdell's Salary, Carlstrom Opinion Reveals

STATE OF ILLINOIS  
Law Department  
Springfield  
October 7, 1931

File No. 3522.  
ROADS AND BRIDGES:  
County Superintendent of Highways.  
Compensation, etc.

Hon. A. V. Smith,  
State's Attorney,  
Waukegan, Illinois.  
Dear Sir:

I have received your letter of the fifth instant, which is as follows: "Your opinion is requested on the following matter relative to the salary of the county superintendent of highways, Lake county."

"Records of the board of supervisors show that the salary of this official was increased from \$4,500 to \$7,000 on the first day of July, 1925. The record of the official proceeding of the board of supervisors shows that \$4,500 of this salary is paid in the usual way from the general county fund, but that the balance is paid from the maintenance fund and engineering fund, which the latter, of course, is a fund for the construction and maintenance of highways. The legality of the payment from these two funds, the maintenance fund and engineering funds, is questioned.

"If your opinion could be expedited in this matter, it will be very much appreciated."

Acted Without Authority.

In answer thereto, I wish to state that, in my opinion, the board of supervisors was without authority to increase the salary of the county superintendent of highways. However, if the county superintendent of highways was appointed on the first day of July, 1925, and his salary then fixed at \$7,000, such action would be legal. From a perusal of your letter, it appears that an attempt was made on the part of the board of supervisors to increase the salary of the county superintendent of highways from \$4,500 to \$7,000 during the term of the incumbent. As

stated, I think this cannot be done. The salary attached to any public office having a fixed term, may not be increased or diminished during that term. (See Foreman vs. People, 209 Ill. 567; Peabody vs. Russell, 301 Ill. 439.)

If the county superintendent's salary of \$7,000 is legal, his appointment having been made on the first day of July, 1925, or subsequent to the time of such a fixing of the salary, the question which you say has been raised is, may he be paid \$4,500 of such salary out of the general fund of the county and the remaining \$2,500 from the maintenance fund and engineering fund raised for the construction and maintenance of highways?

Salary from General Funds.  
My answer to this question is that sub-section (b) of section 8, chapter 121, Smith-Hurd's Illinois Revised Statutes, 1929, provides as follows:

"The terms of office of each county superintendent of highways shall be six years and until his successor is duly appointed and qualified. He shall receive a salary payable out of the general funds of the county in a sum to be fixed by the county board, and shall also be allowed out of the general funds his actual traveling and other expenses incurred in the discharge of the duties of his office."

It is my opinion that the county superintendent of highways cannot be paid salary or expenses out of any funds excepting the general funds. In the event that engineering expense on a road building enterprise, in addition to that which can be performed by the county superintendent of highways, is necessary, such engineering expense, payable to a person other than the county superintendent of highways, may be paid out of the road fund, but, as stated, the county superintendent of highways can be paid his salary and necessary expenses only out of the general funds of the county.

Very truly yours,  
(Signed) Oscar E. Carlstrom,  
Attorney General.

## Banking Should Be Divorced From Politics; Brecheisen Declares

### President of Taxpayers Sees Need of Investigation of State Auditor's Office

Declaring that the majority of taxpayers do not understand the details of racketeering in the banking business in Illinois, but that depositors do know all too well that they have been tricked to a frazzle by Chicago financial interest, President William F. Brecheisen of the Waukegan Taxpayers Association today expressed the opinion that it would be a commendable act if Governor Emmerson, in his call for a special session of legislature, included something about banking and recommended an investigation of the office of State Auditor Oscar Nelson.

"If the loss of \$700,000 in taxes in a busted bank is good financial practice, then let the legislature tell the people how to get bad banking," Brecheisen said.

Commenting upon the meeting of depositors in Waukegan Sunday, when scores of Chicagoans and Lake county depositors, members of the United Depositors Association of Illinois, in honor of State's Attorney A. V. Smith who was successful in bringing about several indictments in the State bank case, President Brecheisen likened the gathering to the origin of the Waukegan Taxpayers Association.

"Little acorns grow into sturdy lawyers to collect delinquent personal taxes. Nothing has been done so far as known to get such illegal payments back into the public treasury and also nothing has ever been done to oblige the return to the public treasury of money illegally paid a supervisor on the building of the court house addition. These illegal payments aggregate now much money and the taxpayers want it back, and might soon, it is reported."

Mr. Lobdell's ability as an engineer has not been questioned. His service to Lake county may well be worth the \$7,000 annual salary paid him, but the illegal manner in which part of the salary was paid caused the trouble.

Sticklers for strictly lawful and orderly procedure in most of their transactions, the county board's infraction in favor of certain individuals have become well known to taxpayers, who insist that the letter of the law be observed in all cases, favored or no favored.

Lobdell has announced that he will resign at the December meeting of the county board.

oaks," the new chief of the Taxpayers declared. "In my neighborhood several years ago the paving contractor was given large 'extras.' We organized to fight this grab and defeated it in the courts. The little acorn grew into a big oak—the Waukegan Taxpayers Association, which has made many uphill fights that have resulted in victory for the people and the saving of thousands of dollars. Chiefly our members are small property owners, persons of moderate means, but many individuals of wealth and affluence have also identified themselves with the association and have aided us in many battles against greed and graft."

"Politicians have proposed many jobs for spending big money, but the taxpayers, organized like Indians of the reservation, have blocked at least three-quarters of a million dollars of senseless bond issues, which, if passed, would have been just too bad, now that so many taxpayers are broke. This defense against raids on the taxpayers' till has been made possible only through organization."

"This same kind of union can save depositors' funds in many Illinois banks. The meetings of depositors here Sunday may be a little acorn in banking reforms. Taxpayers in Lake county are much interested in banks, especially in the closed banks, of which we have two, and one with at least \$700,000 of taxpayers' money tied up. It is a state bank. The organized taxpayers intend to try to see to it that the right thing is being done by those who lifted around \$1,250,000 of its securities and still make the claim that it is good banking."

"We would like to have Governor Emmerson include in his call for a special session of the legislature upon taxation, something about banking and an investigation of the state auditor's office."

President Brecheisen advised Chicago depositors to use their influence that something might be done to prevent a state auditor from owning stock in a big bank that is alleged to have lifted approximately three quarters of a million dollars in securities from a small bank that has slammed its doors on our taxpayers whose \$700,000 bank roll apparently is to be kissed good-bye unless banking in Illinois can be divorced from politics.

Will somebody kindly tell the taxpayers what earthly good resulted from the municipal league meeting in Lake county so far as a reduction of taxes is concerned, and what candidate for public office really promised the people any relief from the current burdens of excessive cost of government?

How many taxpayers in what communities face great unpaid bills and bond issues for unpaid electric power and lights bills, exceeding \$50,000?

## Prominent Attorneys Offer Legal Service

Among the thousands who have become interested in the problems of Lake county taxpayers are the members of a firm of great attorneys who offer advice without cost on questions of public interest.

The head of this firm of lawyers writes:

"It's too bad that every county in the state does not have a newspaper like the Antioch News to keep the public aware of what is going on. If there are any local improvement questions put to the News by any readers, I shall be very pleased to have them submitted to this office and we will answer without expense to your office. This is providing they are matters of general issue and are not limited to the person making the inquiry alone. In such cases the inquirer should be referred to his own attorney."

Thus comes the offer of an unselfish, disinterested service in the cause of the public, and readers who have questions of public interest are invited to submit them to this office.

## TAX SYSTEM SHOULD TEND TO EQUALIZE WEALTH, HANSEN SAYS

### Money in Hands of People Will Continue in Circulation

#### BUYING POWER CAN END OVER-PRODUCTION AND DEPRESSION

By SEVERIN HANSEN

Chairman National Taxpayers Party ("Equalizing Wealth") was the subject of a contribution that first appeared in the Waukegan News-Sun October 5, and was written by Severin Hansen, who since that time has been selected chairman of the National Taxpayers party. Mr. Hansen's views on taxation are interesting and contain much sound logic.—Ed.)

Our federal government and most state, county, township and city governments, also school districts, park districts, drainage districts, road districts, and what-not, have much larger bonded indebtedness than most people realize; most homes, farms and businesses are mortgaged; nearly all corporations have sold bonds, stocks, etc., until the title holder has very little equity in the average property, the so-called owner carries the tax load and is being taxed out of existence.

Financial interests own most of these government and municipal bonds, property mortgages, corporation bonds, stocks, etc. These securities were considered very good, but they are beginning to reflect the effect of high property taxes. Therefore, the financial interests are recommending a sales tax; they oppose any increase in income taxes and inheritance taxes; they say that would be taxing the rich.

A sales tax on luxuries and securities is all right, but a sales tax on food is a tax on each month a family must feed. Most of our tax money should come from large incomes and large inheritances. Taxing the rich will tend to equalize wealth and keep money in circulation, but there are forty-seven states that cannot tax Wall street with a state income tax nor with a state inheritance tax. It takes a federal income tax and a federal inheritance tax to do that. The state of Wisconsin is proof that a state income tax is not a success.

The correct way to reduce property taxes is for the federal government to collect all income taxes and inheritance taxes and "collect enough from the big ones," then prorate most of the money back to the states in proportion to population and each state prorate the money among the counties in proportion to population.

Until we adopt a system of taxation that will tend to equalize wealth and keep money in circulation, overproduction and depression will happen quite often.

What do taxpayers think of another 5-cent tax to do away with anticipation warrants and why not get legislation to get in taxes in time to prevent any need of anticipation warrants?

## DEPOSITORS RESENT NELSON'S DISPLAY OF AUTHORITY

### Auditor Did Not Consult Depositors in Choosing Receiver's Attorney

#### BELIEVE INDICTED OFFICIAL SHOULD BE SHORN OF POWER

President Marsh of the Waukegan State Bank Depositors Association struck a responsive chord when he said that as the salary of the receiver's attorney is paid by the depositors they should have a voice in his selection.

There are about 7,000 persons who have funds tied up in this defunct institution and they feel that any attorney who is appointed should be friendly to a majority of them at least.

The state auditor appoints the receiver's attorney. The state auditor was indicted by a Lake county grand jury. Attorney J. A. Miller, of Waukegan, is the second attorney appointed in the State bank case, and at present the depositors want to know:

Just why did the other law firm withdraw?

Why should an indicted state auditor who permitted questionable conditions to exist in this bank be allowed to have any voice in its operation now?

Why was the present incumbent appointed receiver's attorney without the depositors being consulted?

As there are public funds amounting to over \$700,000 in this defunct bank, what are Lake county taxpayers going to do about it?

Is the present receiver's attorney friendly to all depositors or was he appointed at the request of a few business interests who have lots of paper in this bank?

What was the conference last Sunday all about?

What connection did the present incumbent attorney have with the Security Bank of Waukegan when it went broke?

## TAXPAYERS FORM STATE ORGANIZATION

### Move to Curb Public Waste Starts in Lake County; Sweeps State

#### PEORIA MAN IS PRESIDENT

A popular belief is that to Lake county belongs the honor of founding the first current organization of militant taxpayers who at Waukegan united several years ago in the Waukegan Taxpayers Association that is being copied around the county and state. In view of such conditions especial interest is taken in Lake county in the perfection of a statewide taxpayers' association which is being created in Illinois.

At Bloomington the organization was completed October 16 and at its head was elected F. W. Cohnanon, of Peoria, with Frank H. Funk, of Bloomington, as vice-president. The second vice-president is Henry Boyer, of Mifflord; third vice-president, Mrs. Edward Bacon, Round Lake; fourth vice-president, Jesse W. Osborn, treasurer, C. M. Kest, Lincoln; and secretary, Ivan H. Light, of Bloomington. The association will be represented at the next legislature.

It declared for revision of assessments to achieve uniformity over Illinois and asked for a change in the personal property tax so that it will conform to current conditions.

A state income tax resolution died on the "operating" table.

The Waukegan Taxpayers Association long since resolved against any state income tax largely because it is just another tax among the many too numerous and too large now.

The pioneer fighter for the small taxpayers, R. H. Stripe, is apparently in the minds of innumerable humble citizens in Illinois, where his wonderful success has caused statewide comment and has become the source of much inspiration to the average taxpayers who are uniting all over Illinois for mutual protection against the payrollers and corporate interests which so long have had their own way in tax valuations and the payment of taxes.

Mr. Stripe's fight in the appellate court against the purchase of a city hall property after the voters voted such a project down, is the talk of the state of Illinois among public officials and payers of moderate taxes. Such fights are said to be the life preserver for people of small means during big taxation that is really confiscating much property in Illinois.

"Probation After Death" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 25.

The Golden Text was, "Verily, verily, I say unto you, The hour is coming, and now is, when the dead shall hear the voice of the Son of God; and they that hear shall live" (John 5:25).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Know ye not that they which run in a race run all, but one receiveth the prize? So run, that ye may obtain. And every man that striveth for the mastery is temperate in all things. Now they do it to obtain a corruptible crown; but we an incorruptible" (1 Cor. 9:24, 25).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Progress is born of experience. It is the ripening of mortal man, through which the mortal is dropped for the immortal. Either here or hereafter, suffering or Science must destroy all illusions regarding life and mind, and regenerate material sense and self" (p. 206).

### TAXPAYERS QUESTIONS

(Continued from page three)

What taxpayer would like to work for a utility corporation that objects to honest assessments at a time when it holds back pay for overtime until times get harder this winter?

If civic groups keep up their crazy schemes to squander taxpayers' hard-earned coin, will not a community really go backward fast?

If economists predict still harder times for taxpayers and farmers, what will the racketeers do about reducing the prices on 13-cent milk, 7-cent carfare, 9-cent electric current, \$1.35 gas, and ever-increasing fuel prices?

What taxpayer regards a chamber of commerce a business success if creditors throw it into bankruptcy, as in Joliet?

Who can tell taxpayers what it costs for electric power current per million gallons for pumping municipal filtered water in Lake county and elsewhere?

Is there any community in the United States where the cost of pumping municipal filtered water is for electric current around \$15 per million gallons and what cities pump it for \$5 and less per million gallons?

What will the harvest be for taxpayers as a result of the attorney general's opinion that the board of supervisors had no authority to pay for several years several thousand dollars in excess of the salary provided for from the general taxes and when will the special funds be reimbursed in the case of the superintendent of highways? Will restitution be promptly volunteered and when?

Why cannot the aldermanic administration in our county seat please many taxpayers by putting the jailbirds to cleaning up the highways and by-ways just the same as did the late Mayor Finer who left office with a reputed balance of some \$9,000 and no outstanding bills against Waukegan?

What taxpayers want to lose control of the municipal streets by turning them over to the state if the state will pay only part of the upkeep and if the municipal police lose exclusive control of the streets and if motorists can run by stop signs and laugh at the municipal police?

Taxpayers ask whether a municipality is liable to special assessment bondholders if the special assessment receipts are not kept in separate accounts?

If a special assessment docket is in the red after the property owners made regular payments, can bondholders recover from the taxpayers in a city through the general fund? Is a

question raised at the municipal league meeting.

What do taxpayers think of the proposition of robbing Peter to pay Paul in the form of suffering the general funds of a municipality to borrow money from trust funds, like special assessment funds, and why should property owners on one street be obliged to pay money into a special assessment fund until it is needed and thus be the financial seat for an entire community simply because the politicians have run it so badly that its credit is questioned when there is a need to borrow money on anticipation warrants?

Why not cut down the overhead of community governments and thus avoid the need for anticipation warrants, like is done in Venice, Ill.

Why not give the taxpayers true reports of receipts and expenditures of taxes and thus restore confidence in representative form of government in communities where the politicians have pulled too much rough stuff like paying illegal money to a supervisor, personal tax collecting attorney, and highway superintendent?

Have the taxpayers sufficient spare

## WILMOT JUDGING TEAM IS PLACED THIRD IN CONTEST

The dairy products judging team of the local school was placed third in butter judging at the annual judging contest held at Madison, and fifth in cheese judging. The team is composed of Dick DeBell, Preston Stoxen, and Vernon Runyard, who received honorable mention as fifth high individual in the work.

The following are on the honor roll for the first six weeks period: Mabel Madsen, Marguerite Evans, Gertrude Nett, Lois Pepper, Fern Berry, Emily Flieg, Dorothy Pepper, and Raymond Schold. These people have grades of 90 or above in all subjects carried, and are to be congratulated on their good work. Several others missed the honor roll by just one point.

M. M. Schnurr attended the high school supervisory conference held at Burlington high school, October 22.

Work has been started on the erection of two tennis courts on the school grounds.

The Wilmot high school football team was defeated by the team from Fox Lake high at the Wilmot park Friday afternoon, 13-0. There was heavy going for both teams owing to the rain-soaked grounds; however, the local boys functioned well as a team but were pitted against a strong, experienced team with a heavy backfield. Newman played an especially fine game as guard; as a whole the ends played better than usual. Berry backed up the line nicely. Kopley, who suffered the only injury—a cut on the eye—will be in shape in three or four days. The boys are practicing hard for their next game, scheduled for November 4 at Mukwonago with Mukwonago. The next home game will be played Armistice day with Watertown.

Mr. and Mrs. D. R. Kimbal, Waukegan, were dinner guests Sunday of Mr. and Mrs. George Faulkner. Sunday night they were entertained by Mr. and Mrs. Lynne Sherman.

Mr. and Mrs. Albert Riel and sons, Kenosha, were guests Sunday of Tom and Pat Moran. Monday evening the Morans entertained Postmaster and Mrs. Mills and Attorney Eugene Moran, from Wauwatosa.

The Rev. and Mrs. S. Jedele were in Milwaukee Sunday and Monday. Sunday afternoon they attended the silver wedding anniversary of the Rev. and Mrs. Arnold Schultz.

Allice Kuenzill spent the week-end at her home in Waukegan.

Mr. and Mrs. Ray Burton and Miss Letty Belle Holly were guests Sunday of Mr. and Mrs. G. E. Taylor at Genoa City.

Mrs. Herman Frank and Mrs. Ida Meckenberg were in Genoa City Monday.

Mr. and Mrs. Clifford Pacey visited with Mr. and Mrs. Earle Shalee at Woodstock, Saturday. Sunday they motored to Milwaukee where they were the guests of Mrs. Alma Pacey. Mrs. James Owen, assisted by Mrs. George Bassett, of Bassett, entertained the past matrons and past patrons of the O. E. S. on Tuesday evening at the home of Mrs. Owen.

Margaret Morrison, Kenosha, and Violet and Walter Reed, Paddocks lake, were guests Sunday afternoon of Floyd Pacey.

Masses at the Holy Name on Sunday will be at 8 and 10 o'clock. On Monday, All Souls day, there will be three masses, the first at 7:30 a. m., the second at 7:50 a. m., and the last, a Requiem high mass, at 8:15.

Mrs. Sarah Madden left for Kenosha Saturday, where she will spend the winter months with Mr. and Mrs. Frank Madden.

William Lieske spent this week in Milwaukee.

Mrs. Frank Burroughs spent Monday at Bristol with Mrs. C. Williams. Mr. and Mrs. George Kroncke and children, Madison, and Mr. and Mrs. Jacob Kroncke and family, Milwaukee, were week-end guests of Miss Anna Kroncke.

The card party sponsored at the Wilmot gymnasium Sunday evening by the Ladies of the Holy Name Altar society was exceptionally well attended.

Mrs. Olga Hanneman and son, Floyd, spent Sunday with Mr. and Mrs. John Gauger.

Mr. and Mrs. James E. Carey were in Milwaukee Monday.

Mrs. R. C. Shottliff spent the first of the week at Trevor visiting her father, Elbert Kennedy.

There was no school in the Wilmot primary room Monday as the teacher, Miss Olive Hope, was called to Monroe by the death of a brother.

Ivan Nowell has returned from a two weeks' visit with his mother, Mrs. A. Newell, at Baraboo.

Mr. and Mrs. Frank Kruckman and son, Dale, were guests Sunday of Mr. and Mrs. Harry Strain, at Richmond.

Deane Loftus was home from the Wisconsin university over the week-end.

Mr. and Mrs. Joseph Nolan, Chicago, were week-end guests at the Carey home. Florence Carey, of McHenry, was a guest there during the week.

Mr. and Mrs. Charles Sibley, Mrs. Fred Hawkins, Mrs. Sadie Winchell, Antioch, and Mrs. E. Counsell, Kenosha, called on Mrs. H. Boulden Thursday.

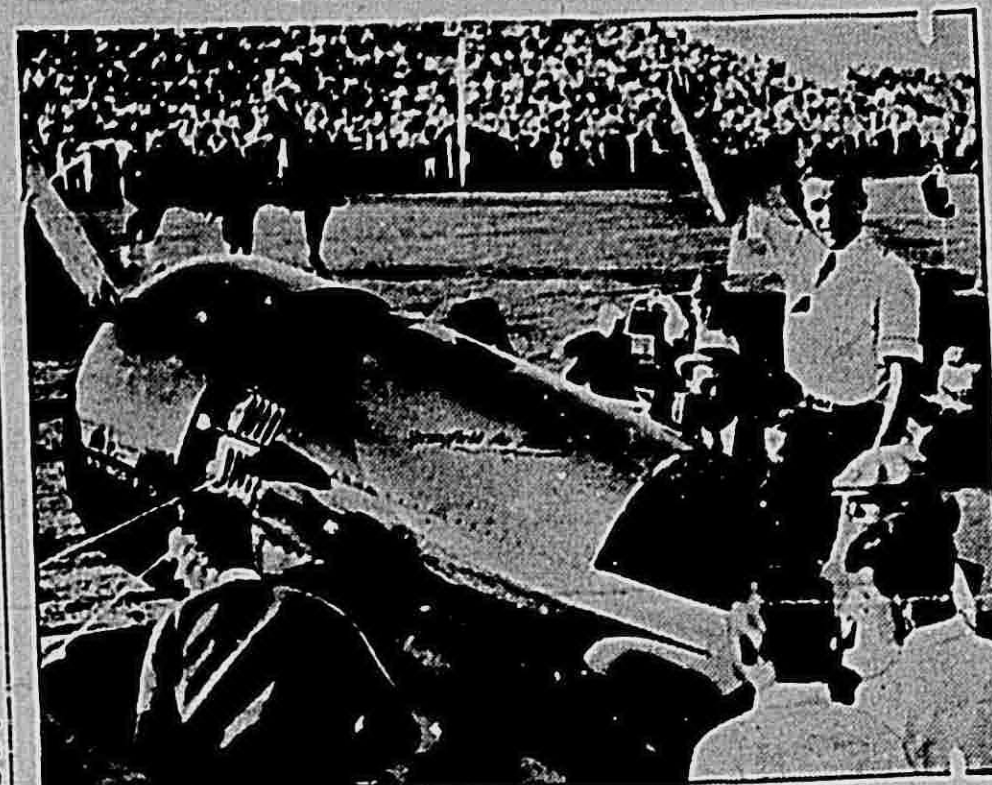

Mr. and Mrs. Walter Rasch entertained at a dinner Sunday for Mr. and

## LAKE VILLA ROYAL NEIGHBORS GIVE A BIG BENEFIT PARTY

### Mrs. Henry Peterson Dies Sunday after Short Illness

A Royal Neighbor benefit party was held at Barnstable hall last Friday evening and in spite of rain, a good crowd was present and a good sum realized. In bridge, Mrs. Rentner and Wilbur Madson won first prizes, and Mrs. H. Nickerson second, with Mrs. B. Gallger, third. Prize winners in 500 were Mrs. H. McCann, Albert Kapple, Charles Martin, and Z. Zenor. Andrew DeBoer, of Tomahawk, Wis., won the prize for coming the longest distance, and Bert Gallger for bringing the largest group. Mrs. Swanson won door prize. The committee served sandwiches, doughnuts and coffee at the close of a pleasant evening.

Mrs. Henry Peterson died at her home at 9:30 o'clock Sunday evening after an illness of several weeks. Although her condition was known to be critical, her death was sudden, and a 9-months-old son is left motherless. She was the daughter of Mr. and Mrs. A. Clark, Wadsworth, and has lived in our village since her marriage eleven years ago. The funeral was held at the church Wednesday afternoon, the Reverend Mr. Alspaugh officiating, with burial at Millburn.

A relief committee for Lake Villa township was formed last week at the meeting held Tuesday at the village hall. Mrs. William Marks is president and Mrs. Hooper, secretary. Petitions for aid will be referred to this committee which, with helpers in the various parts of the township, will investigate and, if found worthy, aid will be given. The first benefit party for this purpose will be held at Barnstable hall Tuesday evening, November 3. And when you are called upon by one of the groups selling tickets, remember the worthy cause and do not refuse your aid. Clothing and food will be needed before the winter is over and the committee will appreciate donations, as well as cash.

Mr. and Mrs. Floyd Culver and son, Everett, Bloomington, Mich., came Friday night for a few days' visit with relatives, the Culver, A. Atwell and F. Richards families.

The annual election of officers and business meeting of the East Fox Lake Cemetery association will be held at the Monaville schoolhouse on Thursday evening, November 5.

The Epworth League group held a Hallowe'en party at the church last Friday evening and enjoyed Hallowe'en games and fun. Cider, sandwiches and cookies were served by the young folks.

A community Hallowe'en party will be held at the church next Friday eve-

ning and all are given a cordial invitation to attend.

The Schneider family, which formerly lived at Monaville, has moved into the Richard house west of town, recently vacated by the Wilkinson family.

Mr. and Mrs. Paul Avery and George Wallis spent Monday in Chicago.

Work on the overhead bridge on the Soo line is almost completed, and work will soon begin on the fill. The contractor has most of his materials and tools on the ground, and shacks built for men. Work is supposed to be finished this fall.

Mrs. William Marks visited relatives and friends in Barrington for a few days last week.

A daughter was born to Mr. and Mrs. Paul Scott Wednesday.

Mr. and Mrs. T. B. Rhoades and Katherine are spending a few weeks at Mr. Rhoades' farm, near Phillips, Wis. Their daughter, Mrs. Karen Karolluson, and husband are keeping house for the boys during their parents' absence.

Mrs. Lee Gullette visited friends in Chicago for a few days last week.

The Ladies' Aid society will meet with Mrs. Robert Alspaugh at the parsonage Wednesday afternoon. A business meeting will be held at 2 o'clock with a social afternoon following. This is the close of the recent membership drive, and visitors are very welcome.

Mr. and Mrs. Lester Hamlin visited Mrs. Hamlin's parents, Mr. and Mrs. A. Nanta, in Waukegan, Sunday.

Mr. and Mrs. George Mitchell and daughter, also Mrs. Harriet Mitchell, Chicago, spent Saturday and Sunday with Mr. and Mrs. James Kerr.

Mr. and Mrs. Harvey Myers drove to Oak Park last Friday to take Howard to the Shriners' hospital there to take treatments again and for an operation on his leg soon. He received much benefit from his stay there last winter and it is hoped that he will again be benefited.

Mr. and Mrs. A. Anderson and daughters and Mr. and Mrs. Fred Hodgkins and children, Chicago, spent Sunday with the Reinebach and Leonard families.

## P.-T. A. Meeting Day Changed to 2nd Mon.

At the October meeting of the Parent Teacher Association, a motion was passed to change the meeting day to the second Monday of the month. A detailed account of the program for November 9 will be in next week's issue of this paper. All room mothers are urged to complete their membership drive so that the 100 per cent membership mark will soon be reached.

# Now GAS IS CHEAPER

## and it's not too late to heat your home with this ideal fuel THIS WINTER

**THERE** is still time to have carefree gas heating service for your home this winter. And because a new gas has been brought into northern Illinois, it has been possible to reduce the cost of this most modern of fuels approximately 30%.

### Let us figure your cost

To show you just what this reduction means to you, we will be glad to send one of our house heating engineers to call at your home. At once—and without obligating you in any way. He can prepare an estimate of just what it will cost to heat with gas under the new rates.

Remember in comparing gas with other fuels that it offers you completely carefree heating service. A temperature regulator in the living room takes full charge of the furnace—orders your fuel as you need it—keeps the whole house comfortably, healthfully warm.

### Install gas heat now

Why not install gas heat now—for the coming winter. You can begin to enjoy its many advantages during changeable fall weather. When temperatures drop temporarily, your gas heater will start up automatically. As soon as the house is comfortable, off it goes again. Because

the heater works automatically, you waste no fuel.

And, of course, you're through with shoveling coal, fussing with drafts, carrying out ashes forever.

In most cases your present heating plant can be "converted to gas" at small expense. A gas-burner can be installed in the fire-box whether your system is warm air, hot water or steam. The Public Service Company's testing laboratory has approved half a dozen of these conversion burners—will be glad to recommend one exactly suited to your home.

### Mail the coupon

If you will mail us the coupon below, we'll send one of our house heating engineers to call on you. He will not only tell you all about the new gas heating rates and conversion burners—but also estimate just what gas heat will cost during an average heating season.

### PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

## Antioch Grade School Boys and Girls Enjoy Studying Specimens

Not much longer will Antioch grade school pupils be exclaiming, "Look, Bill, the spider is eating up the fly!" "And the caterpillar's wrapping himself up in the cocoon!" "Look at the big ant feeding the little ant!"

For the past several weeks local boys and girls have been bringing ants, caterpillars, beetles, and other insects to school in connection with their nature study work.

The object of specimens is not entertainment, although a world of pleasure is being derived from the study. This phase of nature work is being undertaken to stimulate the children's power of observation and independent thinking, to make them conscious of the workings of nature, and to prevent certain ultra-studious children from becoming too bookish.

"Our nature work is giving the children a chance to train their eyes," said Miss Alice Warner, art instructor, this morning. And Miss Julia Stricker, third grade teacher, says, "I don't think children give insects particular notice until they study them."

The higher grades are studying a variety of insects, going into their life cycles and other subjects in an elementary way. Natural objects to be studied later will include flowers, trees, and clouds.

A study of various phases of health is being taken up in several of the grades and a number of miscellaneous topics in elementary science are also being considered.

## Lake Villa Organizes a Relief Committee

Prompted by a desire to aid the needy, residents of Lake Villa township met at the village hall Tuesday and organized a relief committee. Mrs. William Marks was named president and Mrs. C. E. Hooper, vice-president.

Petitions for aid will be referred to this group, which will launch investigation before giving aid. The first benefit party for this purpose will be held at Barnstable hall Tuesday night.

## Local Players Near Championship Goal; Win From Palatine

Defeating the Palatine players, 19-0, here Saturday Antioch has advanced one step further toward the conference championship. There are now but two games remaining on the schedule. Leyden comes here Friday and Antioch goes to Libertyville on Armistice day. Antioch and Libertyville are the only undefeated teams, Leyden having been beaten by Libertyville. However, Watson doesn't figure he is entirely out of the running and is confident that his team will be able to win from Antioch.

In the game Saturday Antioch was much more experienced and outweighed Palatine several pounds to the man. Quarterback Brogan held the man as a team. Quarterback Brogan held several of his best plays back because of the presence of the Leyden coach and spectators. This is Palatine's first real season of football and Coach Megel deserves considerable credit for the advancement his team has made.

Plans are being formulated to make the Leyden game a grand finale for the home season. Mr. Starck is bringing his band of sixty pieces in full regalia. The band will lead the parade from the high school starting at 2:30 through the business section to the football field. The game will be called at 3 o'clock.

## Sailors' Health Guarded

The Department of the Navy says that the U. S. S. West Virginia carries one commander in the medical corps, one junior lieutenant in the medical corps, one lieutenant in the dental corps. In addition there are from 10 to 15 pharmacists' mates. There is a hospital ward, the sick bay ward and emergency operating room. There is also a dispensary. A complete line of medical stores and medical supplies is also carried.
